Education

Newcastle University – First Year

[Newcastle, United Kingdom]

Computer Science

[Sep '23 - Jun '24]

- **Relevant modules** – [Computer Systems Design and Architectures, Foundations of Data Science, Fundamentals of Computing, Programming Portfolio 1 and 2].
- **Grades** – Overall: [79/First Class].

INTO Newcastle
College

[Newcastle, United Kingdom]

[Sep '23 - Jun '24]

- **Grades** – Overall: [76/First Class].

WORK EXPERIENCE

TechConnect

[Jakarta, Indonesia]

Data Scientist Intern

[Jun '25 – Aug '25]

- Collected, scraped, cleaned, and analyzed large datasets to support business decision-making.
- Applied machine learning models (e.g., Random Forest, XGBoost, Neural Networks) for predictive analysis and performance evaluation.
- Built data visualizations and dashboards to communicate insights to both technical and non-technical stakeholders.
- Collaborated with senior data scientists on feature engineering, model optimization, and evaluation using metrics such as Accuracy, Precision, Recall, and F1 Score.
- Contributed to improving workflow efficiency by documenting processes and ensuring reproducibility of experiments.

LEADERSHIP ACTIVITIES

Head of Club of Interest and Head of Team Management PPI UK

[Newcastle, United Kingdom]

PPI NCL-SUN 2024/2025 – 2025/2026

[Sept '24 - Present]

- Organized and led weekly sports events, including fun running and charity runs and weekly badminton, football, basketball, and volleyball. Fostering community engagement and student well-being.
- Successfully led Newcastle's bid to host the PPI UK Olympics 2024/2025 for the first time in many years, securing the city as the official venue and strengthening Newcastle's reputation in the national PPI sports community.
- Spearheaded of Newcastle city for Olympic PPI NCL-SUN 2024/2025 with managing more than 20 athletes for each sports, jersey, and participant coordination.
- Strengthened the Indonesian with more than 200 students community through sports and cultural events, enhancing collaboration and networking opportunities.

PROJECTS

Portfolio Risk Analysis and Monte Carlo Simulation of Indonesian Equities with Stress Testing Using Historical Market Data – Python

[Personal Project] - https://github.com/TEXTRAX28/Portfolio-Risk_Management

- Analysed the risk and performance of an Indonesian equity portfolio using Python, including volatility, drawdown, beta, Sharpe ratio, VaR, and CVaR.
 - Simulated future portfolio returns using Monte Carlo methods and evaluated downside risk through stress testing scenarios.
 - Quantified diversification benefits using covariance and correlation analysis, achieving a 44% reduction in portfolio risk.
- Simulated future portfolio returns using Monte Carlo methods and evaluated downside risk through stress testing scenarios.

Mergers and Acquisitions ML Classifier – Python and Excel

[Personal Project] - <https://github.com/TEXTRAX28/Mergers-and-Acquisitions-ML-Classfier>

- Processed and cleaned Mergers & Acquisition (MnA) dataset for predictive modelling.
- Used Excel for initial data exploration, pivot tables, and summary statistics to identify trends and anomalies.
- Built classification models using Random Forest, XGBoost, and Neural Networks with evaluations, feature engineering, scaling, and visualized features importance

SKILLS AND INTEREST

Languages: Bahasa Indonesia (native), English (Fluent).

Awards & Certification: IELTS British Council (Average: 6.5), Python Codédex (Course Completion), Data Science – Forage (British Airways).

IT Skills: MS-Office (Word, Excel, and PowerPoint), Python, Java, HTML, CSS, SQL.

Hard Skill: Pitching Ideas, Reporting, Research.

Soft Skill: Leadership, Teamwork, Problem-Solving, Flexible, Patience, Inter-cultural Skills, Easily Adaptable.
